

Flying WILD[®]

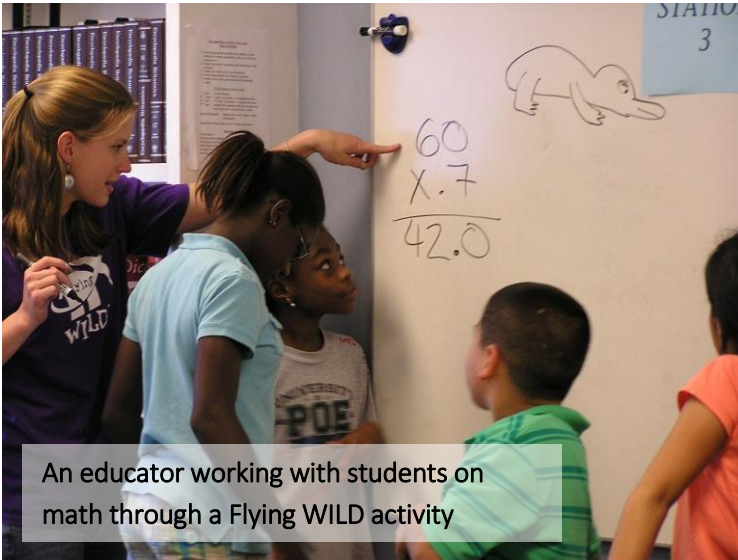

EDUCATOR WORKSHOP

March 25th or 26th 2016

Educators at the 2015 workshop dissection owl pellets during a curriculum activity

A program of the Council for Environmental Education, Flying WILD introduces students in grades 5-9 to bird conservation through standards-based classroom activities and environmental stewardship projects.

An educator working with students on math through a Flying WILD activity

- Get students **outdoors and into nature**.
- Help **urban middle-school students excel academically** and learn scientific method skills.
- Enjoy **learning about birds** along with your students.
- Receive **award-winning program guide** and fun, hands-on, supplementary curriculum to engage students in **real inquiry** - curriculum meets **National Science Standards**.
- Earn three **professional development credits**.

Thanks to a generous grant from the Minnesota Ornithologist's Union (MOU) we have the opportunity to offer this workshop and the Flying WILD curriculum **FREE** to qualified educators who apply online.
